DETAILED ACTION

1. In response to the Office action mailed on April 3, 2009 the Amendment has been received on July 1, 2009.

Claims 1-7, 10-14, 16, 19 and 20 have been canceled.

Claim 8 has been amended.

Claims 8, 9, 15, 17 and 18 are currently pending in this application.

Allowable Subject Matter

2. Claims 8, 9, 15, 17 and 18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 8 is allowed because prior art fails to teach or make obvious a remote XRD means for identifying a material in a volume of interest (VOI) comprising: a database comprising records of patterns' parameters characterizing predetermined materials; and alerting means issuing an alert when a material is identified that is one of the materials for which a notification should be provided when identified; wherein the processor is measuring at least a portion ($\leq 360^\circ$) of the full Debye- Scherrer rings as claimed in combination with all of the remaining limitations of the claim.

Claim 15 is allowed because prior art fails to teach or make obvious a method for acquiring XRD images of a material in a VOI, comprising the steps of: acquiring of Debye-Scherrer XRD patterns; extracting of Debye-Scherrer XRD patterns; converting

said XRD patterns of a VOI to standard powder X-ray diffraction spectra; searching and/or matching records in a database for material identification; and alerting in case a material matches a predetermined record as claimed in combination with all of the remaining limitations of the claim.

Claims 9, 17 and 18 are allowed by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see page 3, filed July 1, 2009, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of claims 8 and 9 has been withdrawn. Claims 15, 17 and 18 are remaining allowable as it has been indicated in the previous office action.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hussein et al. (US Patent 5,600,303), Fawcett et al. (US

Patent 4,821,303) and Tanimori et al. (US Patent 6,118,849) teach the X-ray diffraction analysis methods and apparatus.
